

Solve each problem.

- 1) What is the value of the 7 in the number 7,146?
- 2) What is the value of the 1 in the number 19,468?
- 3) What is the value of the 5 in the number 53,176?
- 4) What is the value of the 5 in the number 56,149?
- 5) What is the value of the 4 in the number 3,824,967?
- 6) What is the value of the 2 in the number 954,723?
- 7) What is the value of the 4 in the number 1,269,847?
- 8) What is the value of the 6 in the number 9,375,264?
- 9) What is the value of the 5 in the number 65,289?
- 10) What is the value of the 7 in the number 5,631,792?
- 11) What is the value of the 5 in the number 143,958?
- 12) What is the value of the 1 in the number 951,342?
- 13) What is the value of the 7 in the number 284,376?
- 14) What is the value of the 8 in the number 682?
- 15) What is the value of the 5 in the number 83,521?
- 16) What is the value of the 1 in the number 517,432?
- 17) What is the value of the 4 in the number 679,418?
- 18) What is the value of the 1 in the number 49,173?
- 19) What is the value of the 7 in the number 97,638?
- 20) What is the value of the 8 in the number 3,756,821?

Answers

1. _____
2. _____
3. _____
4. _____
5. _____
6. _____
7. _____
8. _____
9. _____
10. _____
11. _____
12. _____
13. _____
14. _____
15. _____
16. _____
17. _____
18. _____
19. _____
20. _____
