

Hey there, let's talk about a fascinating creature - the goose! This large bird is covered in soft, white or grey feathers, has a long neck, and a beak perfect for honking. They have strong wings that they use to fly long distances and webbed feet that make them excellent swimmers. Their eyes are sharp, helping them spot food and danger from far away.

Speaking of food, did you know geese have a varied diet? They love to munch on grass, seeds, berries, and small insects. Sometimes, they even eat small fish or snails when they are near a water body. Their strong beak helps them to dig in the soil for roots and tubers.

Geese don't just have interesting eating habits, they have unique living arrangements too. These birds are found all over the world, from North America to Europe, and even Asia. They live near water bodies like lakes, rivers, or ponds and build their nests on high ground to keep their eggs safe from predators. During winter, they migrate to warmer places in large groups known as gaggles.

Geese share interesting relationships with humans and other animals. Farmers often keep them for their eggs, meat, and feathers, and because they honk loudly at strangers, they make good 'watchdogs'. They can be aggressive and protective, especially when defending their nests from predators like foxes. In a nutshell, geese are fascinating creatures with their unique features, diet, and habitats!

**Solve each problem.****Use the article to answer the question.**

- 1) What color are the feathers of a goose?
 - A. White or grey
 - B. Blue
 - C. Black and white
 - D. Orange

- 2) Where can geese be found?
 - A. All over the world
 - B. Exclusively in the marshes of Asia
 - C. Only in the warm areas of North America
 - D. Only In southeast Europe

- 3) What does a goose use its beak for?
 - A. To make their nests
 - B. To carry their babies
 - C. To dig in the soil for roots and tubers
 - D. To catch raindrops

- 4) How is a goose's eyesight?
 - A. It is average, no better or worse than other animals
 - B. It is poor, they are almost blind
 - C. It is good, they can spot danger from a great distance
 - D. They can see very well close-up, but can't see very far

- 5) What type of feet does a goose have?
 - A. Clawed feet
 - B. Hooves
 - C. Webbed feet
 - D. They do not have feet

- 6) What kind of fish do geese eat?
 - A. Sharks
 - B. Big fish
 - C. Electric eels
 - D. Small fish

- 7) Where do geese build their nests?
 - A. On rooftops
 - B. On high ground
 - C. They don't build nests
 - D. Inside caves

- 8) What do geese do during winter?
 - A. They migrate to warmer places
 - B. They build snow nests
 - C. They hide in caves
 - D. They hibernate

- 9) If you wanted to find geese in the wild, where would you most likely look?
 - A. Near a river
 - B. In the desert
 - C. Deep inside caves
 - D. High up in trees

- 10) Which of the following is a food geese like to eat?
 - A. Nuts
 - B. berries
 - C. Tree bark
 - D. Small rodents

Determine if the statements is something the animal would say (W) or it it is not something the animal would say (N).

- 11) "I hate swimming, I would rather fly all the time."

- 12) "I like to hibernate during winter."
- 13) "If I'm near water, I might snack on a small fish or even a snail."
- 14) "I have a very short neck."
- 15) "I survive on a diet purely of seeds and berries."
- 16) "I am very bad at swimming, that's why you see me walking around."
- 17) "I use my beak to dig in the soil for roots."
- 18) "I can be very protective, especially when defending my nest from predators. Don't mess with me!"
- 19) "My eyes are great! They help me spot food and danger from far away."
- 20) "I choose the lowest ground to keep my eggs."
- 21) "I prefer to live in a desert."
- 22) "I leave my eggs unattended most of the time."
- 23) "I enjoy a good meal of grass, seeds, berries, and even small insects!"
- 24) "I often have trouble seeing things very far away."
- 25) "Farmers often keep us for our eggs, meat, and feathers."
- 26) "I build my nest on high ground to keep my eggs safe from predators."
- 27) "You can find me in many parts of the world; from North America to Europe."
- 28) "We only live in Europe."
- 29) "With my strong wings, I can fly long distances."
- 30) "During winters we travel to warmer places in large groups called gaggles."

Determine if the statement is a fact or opinion based on the information in the article.

- 31) Geese are found living in areas all across the world, including North America, Europe, and Asia.
- 32) The fact that geese can fly long distances is the best thing about them.
- 33) Geese use their strong beak to dig the soil for roots and tubers.
- 34) The way geese live near water bodies and build nests on high ground to keep their eggs safe is the smartest animal behavior.
- 35) Geese are typically covered with white or gray feathers.
- 36) When geese eat small fish or snails, it is gross.
- 37) Geese can be aggressive when protecting their nest from predators.
- 38) Grass, seeds, berries, and small insects form a part of the regular diet of a goose.
- 39) Geese flying in formation is the most beautiful sight.
- 40) The loud sound of geese honking is annoying.

Determine if the statement is true or false.

- 41) Geese can be found in Europe and Asia.
- 42) Geese do not build nests.
- 43) Geese migrate during the winter.

- 44) Geese only eat grass and seeds.
- 45) Geese can see food and danger from a long distance.
- 46) Geese do not migrate.
- 47) Geese are excellent flyers but not very good swimmers.
- 48) Geese are found only in North America.
- 49) Geese build their nests on high ground to protect their eggs from enemies.
- 50) Geese are excellent swimmers.

Determine if the sentence is a declarative(d), exclamatory(e), interrogative(i) or imperative(m).

- 51) Geeses can fly long distances.
- 52) It's amazing that a goose can live up to 24 years in the wild!
- 53) Geese's honking during flight is their form of communication, how cool is that!
- 54) A gosling can walk and swim within 24 hours of its birth, it's absolutely incredible!
- 55) A goose's bill has a sharp point to help it dig into the ground for food, what an incredible adaptation!
- 56) Geese eat plants and insects.
- 57) What do geese eat?
- 58) Geese mate for life, now that's true love!
- 59) Geese are social animals and like to be in groups.
- 60) How do geese communicate with each other?
- 61) Geese migrations can be as long as 3,000 miles, that's absolutely breathtaking!
- 62) What color are geese?
- 63) It's astounding that a goose can flap its wings up to 400 times per minute!
- 64) Some geese can fly as high as 29,000 feet, that's nearly the height of Mount Everest!
- 65) A goose can lay more than 50 eggs in one year, it's mind-boggling!
- 66) Geese always travel in V-formation, an astonishing phenomenon!
