

Represent each equation with numbers and symbols.

Answers

1) twenty plus zero equals twenty

1. _____

2) eight minus five equals three

2. _____

3) thirteen plus two equals fifteen

3. _____

4) eleven plus four equals fifteen

4. _____

5) eleven plus one equals twelve

5. _____

6) fourteen minus thirteen equals one

6. _____

7) twelve plus six equals eighteen

7. _____

8) fourteen minus fourteen equals zero

8. _____

9) eleven plus three equals fourteen

9. _____

10) twenty minus eighteen equals two

10. _____

11) nine plus six equals fifteen

11. _____

12) thirteen plus five equals eighteen

12. _____

13) twelve plus three equals fifteen

13. _____

14) seventeen minus seventeen equals zero

14. _____

15) ten minus seven equals three

15. _____

16) nineteen minus nineteen equals zero

16. _____

17) nineteen minus seventeen equals two

17. _____

18) sixteen plus two equals eighteen

18. _____

19) ten plus eight equals eighteen

19. _____

20) four plus two equals six

20. _____

Represent each equation with numbers and symbols.

- 1) twenty plus zero equals twenty
- 2) eight minus five equals three
- 3) thirteen plus two equals fifteen
- 4) eleven plus four equals fifteen
- 5) eleven plus one equals twelve
- 6) fourteen minus thirteen equals one
- 7) twelve plus six equals eighteen
- 8) fourteen minus fourteen equals zero
- 9) eleven plus three equals fourteen
- 10) twenty minus eighteen equals two
- 11) nine plus six equals fifteen
- 12) thirteen plus five equals eighteen
- 13) twelve plus three equals fifteen
- 14) seventeen minus seventeen equals zero
- 15) ten minus seven equals three
- 16) nineteen minus nineteen equals zero
- 17) nineteen minus seventeen equals two
- 18) sixteen plus two equals eighteen
- 19) ten plus eight equals eighteen
- 20) four plus two equals six

Answers

1. $20 + 0 = 20$
2. $8 - 5 = 3$
3. $13 + 2 = 15$
4. $11 + 4 = 15$
5. $11 + 1 = 12$
6. $14 - 13 = 1$
7. $12 + 6 = 18$
8. $14 - 14 = 0$
9. $11 + 3 = 14$
10. $20 - 18 = 2$
11. $9 + 6 = 15$
12. $13 + 5 = 18$
13. $12 + 3 = 15$
14. $17 - 17 = 0$
15. $10 - 7 = 3$
16. $19 - 19 = 0$
17. $19 - 17 = 2$
18. $16 + 2 = 18$
19. $10 + 8 = 18$
20. $4 + 2 = 6$
