

Solve each problem.

- 1) The table below show the points Paige scored on a video game each time she played.

Game #	Points Scored
1	192
2	117
3	125

After the first 3 games, she took a break and came back the next day and scored 6 times as many points as she had during all the previous games combined. How many more points did she score after her break?

- 2) The table below show the number of play tickets sold (excluding the first week).

Week	Tickets sold
2	188
3	132
4	171
5	128
6	185

In the first week there were 6 times as many tickets sold as there were in the next 5 weeks. How many more tickets were sold in the first week than in the remaining weeks?

- 3) The table below shows the number of books Robin read the first 3 months of school.

Month	Books Read
1	25
2	35
3	36

If Billy read 8 times as many books as Robin, how many more books did Billy read?

- 4) A new fast food restaurant opened 5 months ago. The table belows shows the number of burgers they've sold so far.

Month	Burgers Sold
1	1,475
2	2,566
3	3,254
4	2,620
5	3,639

The next month (after spending some money on an ad) they sold 4 times as many as they had sold in the previous 5 months. How many more burgers did they sell after running the ad?

Answers

1. _____
2. _____
