

Determine the elapsed time for each problem.

Answers

- 1) Adam finished his homework at 8:45. If he started working on it at 6:45, how long did it take him to finish?
- 2) George started looking for his missing cat at 4:05. If he found it at 5:55, how long did he spend looking?
- 3) Rachel's band practice started at 6:45. If the practice ended at 8:55, how long did it last?
- 4) Carol took a train from her house to the state capitol. The train left at 1:00 and got to the capitol at 4:50. How long was the train ride?
- 5) Oliver was invited to birthday party that started at 6:15. If the party ended at 8:45, how long did the party last?
- 6) Tom started reading a book at 3:05. If he finished it at 4:45, how long did he spend reading?
- 7) Lana finished washing clothes at 6:35. If she had started at 5:35, how long would she have spent washing clothes?
- 8) Amy and her friends left for the park at 3:30. If they got back at 6:15, how long were they at the park?
- 9) Victor woke up from a nap at 4:10. If he originally went to sleep at 2:30, how long was his nap?
- 10) Gwen's parents left to go shopping at 2:50. If they got back home at 4:20, how long were they gone?

1. _____

2. _____

3. _____

4. _____
